

W+K Cyber team cover for the holiday period

Christmas is a busy time of year catching up with family and friends away from the office. Unfortunately, it is also a busy time of year for Hackers who target the holiday season, with cyber attacks spiking in frequency.

While W+K's offices will be closed from **Friday, 23 December** until **Monday, 9 January**—our team will be rotating on-call at the email address and helpline below to take instructions, triage calls and help with urgent incidents. A team will also be available through this period to help with any volume work.
